22 WEEKS

DVD

28 minutes

HS thru Adult

22 Weeks chronicles the true story of Angele, a mother who chose to abort her child at 22 weeks pregnant at a clinic in Florida in 2005. The baby was born alive in a bathroom at the clinic and the nurses refused to help Angele and the baby, neglecting their legal duties to provide medical care for babies born alive after abortions. The baby died after being denied medical care. Film has 2 versions censored and uncensored. Film is very graphic.

ABUNDANT LIFE PROGRAM, THE, #55 RAPE AND INCEST - NO EXCEPTION

VHS
Jr. High thru Adult

60 minutes

If abortion seems the right choice because a woman has become pregnant through rape or incest, please watch this video. Three women directly connected with the rape and incest issue tell their stories to hostess Johnette Benkovic, of Living His Life Abundantly Ministry. Lee Ezell explains how she was not raised in a loving family and thus left home at an early age. On her first paying job, she was raped by a salesman and became pregnant by that rape. She chose life for her baby girl, releasing her for adoption. Years later her daughter found her and they have ministered together ever since then to women who are troubled by the rape and incest issue. Nancy Karger was born as a result of rape, and didn't know she was adopted because her adoptive mother didn't want anyone to know she was adopted. Only after her adoptive mother died did she search for and find her birth mother. Another mother adopted a baby who was born as a result of rape to a mother 14 years of age. The adoptive parents send pictures and letters about their daughter to the birth mother. Powerful arguments against abortion as a result of rape or incest reinforce the need to choose life.

ALMOST BORN - THE SHOCKING TRUTH ABOUT PARTIAL-BIRTH ABORTION

VHS

55 minutes

Jr. High thru Adult

Although this video was made in 1997, it explains the partial-birth abortion procedure and arguments against it most thoroughly. In 1997 Dr. Falwell launched a petition drive to convince Congress to ban this heinous method of abortion. In subsequent years the Partial-Birth Abortion Ban Act was passed, but this was vetoed by President Clinton, and there were not enough votes to override his veto. Brenda Pratt Shafer, a nurse who witnessed partial-birth abortion done by notorious abortionist Dr. Martin Haskell, testified before Congress during its consideration of the Partial-Birth Abortion Ban Act. Dr. Haskell actually wrote a paper describing how to do the procedure in 1992, as the procedure is not included in medical textbooks because it clearly kills the baby. Arguments propagated by abortionists to justify partial birth abortion are exposed as gross lies. Such lies include that partial-birth abortion is necessary to save the life of the mother; that it's medically necessary; that the baby is defective, so therefore it must die; and that the procedure is done only in rare instances. Please watch this video at home to educate yourself on partial birth abortion.

Karen Malec, Coalition on Abortion & Breast Cancer, says that studies in England have proved there is a connection between abortion and breast cancer. She says the reason it is not widely publicized is that the press supports abortion. Also, the Susan G. Kohlmen Foundation gives money to Planned Parenthood. Statistics show that 1 in 7.5 women will have breast cancer. 5. The brochure "Lynching is for Amateurs" shows the impact of abortion in the black community. For more information, go to Klanparenthood.com. 6. Argument between Jim Bopp, National Right To Life, and Richard Thompson, Thomas More Law Center over the South Dakota legislation of HB 1191, which criminalized abortion and stated that life begins at conception and was for the protection of the unborn child. The bill lost by one vote and Jim Bopp, NRTL was against the bill because he felt it would not get pass the Supreme Court. He wanted the bill to start with criminalizing the partial birth abortion act, instead of starting out with restricting all abortions. Richard Thompson and Mark Crutcher felt that this attitude is wrong. 7. Life Talk News

LOAN PROCEDURES FOR AUDIO-VISUAL PROGRAMS

Programs and speakers from Illinois Citizens for Life come to you without fee, although donations to continue our educational services are welcome. We do, however, have some simple procedures for borrowing materials:

- Reserve programs in advance, particularly during the school year, and especially for January and October.
- We must have your name; your school, church or organization name and address; and phone numbers where you can be reached.
- If you are not an ICL speaker we require a \$15 security deposit for one video tape and \$25 for 2-3 tapes.
- In the case of videos returned beyond the due date, the security deposit will be forfeited.

For patrons in Northeastern Illinois

ICL speakers are available with all our programs. They will operate the A/V equipment and answer audience questions.

For patrons elsewhere in Illinois

We will ship a program to you UPS at your expense. Please allow time for shipping when you reserve a program – and allow time for shipping when you give us your promised return date.

ABOUT ILLINOIS CITIZENS FOR LIFE

Illinois Citizens for Life is an educational resource to the community on pro-life topics. It is a non-partisan, non-denominational, grassroots organization financed by contributions from individuals and its own fund raising efforts.

We inform Illinoisans through our speakers and presentations, as well as through literature in English or Spanish and a highly respected newsletter, Lifeline, which appears six times a year. ICL also has affiliated area groups meeting and working in several Illinois counties.

For more information on our programs, literature, and activities, request a copy of our brochure and Lifeline with your program reservation form.
